Call for Research Papers

INSEE seeks Research Papers for its bi-annual peer-reviewed open-access Journal.

Those who wish to contribute to the second issue of second volume of Journal (dated July 2019) may send their papers by **January 25, 2019** to insee.ees@gmail.com. See the INSEE website for [Guidelines](#) for submission.

Contributions received later than the above date will be considered for subsequent issues.

EES offers authors a forum to address socio-environmental issues from, across and within the natural and social sciences. EES would promote methodologies pluralism and inter-disciplinary research.
